

Welcome to carnegie hygiene centre

Carnegie Hygiene Centre makes it easy to see a dental hygienist in relaxed surroundings in Leeds and Bradford. Our hygienists and therapists are specially trained in the prevention and treatment of all aspects of gum disease and aim to make your dental treatment as pleasant and stress free as possible.

Due to a change in regulations, dental hygienists and therapists are now able to provide their patients with dental hygiene services without the patient first having to see a dentist.

This means that if you do not have a dentist, or if you have a dentist but simply wish to see one of our hygienists, you can book either a one off special occasion treatment or choose to come regularly to maintain your gum health at the Carnegie Hygiene Centre.

£200 off tooth whitening if you join a Carnegie hygiene plan

At Carnegie Hygiene Centre we pride ourselves on the high levels of patient care and the excellent dental treatments that we provide for all of our patients, especially the nervous ones!

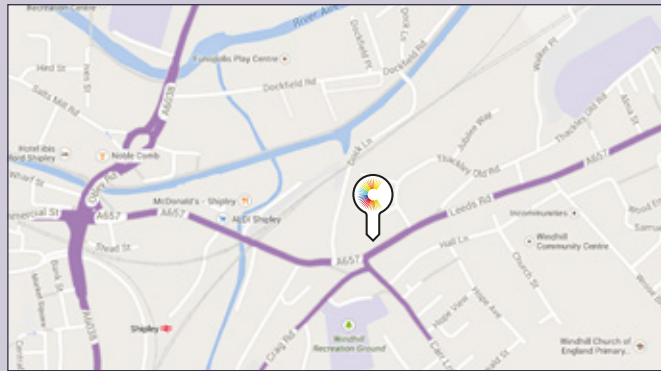

Our whole team is committed to continually updating their dental education, ensuring that we provide you with the latest dental and hygiene treatments in our friendly surroundings.

Hygiene and stain removal appointment

- This appointment is recommended for your first visit with us
- Full mouth plaque and tartar removal
- Screening for oral cancer and gum disease
- Bespoke care plan for your gum health
- Personalised oral hygiene instruction and diet advice
- AIRFLOW stain removal technology.

This consists of a projection of tiny particles of sodium bicarbonate directed at high pressure towards your tooth which removes unsightly staining caused by smoking, tea, coffee etc. It is particularly effective at removing stain in between teeth that can be inaccessible to conventional brush based methods of polishing.

Anti-wrinkle treatment

We are very excited to announce we are now providing anti-wrinkle and dermal filler treatments with our dentist, Dr Lizzie Handley, who has trained extensively with the esteemed Harley Street Clinic in London to gain her qualifications in Advanced Facial Aesthetics. She offers a wide range of Aesthetic treatments including anti wrinkle injections for forehead lines, frown lines, crows feet and more. She also offers dermal fillers for your lips, cheeks,

nasolabial folds and marionette lines. Dr Handley uses a dental anaesthetic for lip fillers to ensure the treatment is comfortable and pain free.

carnegie hygiene centre plans

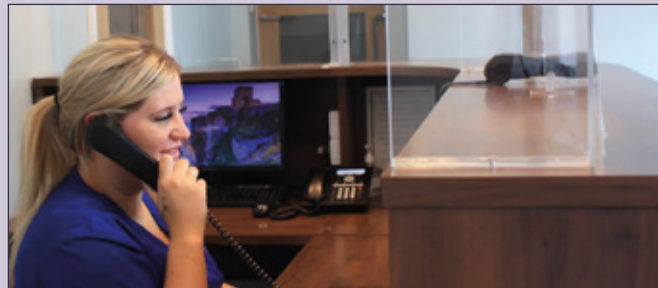

For regular patients carnegie hygiene plans offer you excellent value. Monthly payments start from just £5.50 per month and you receive additional discounts you will receive 20% off airflow stain removal. You can continue to pay for your examination and other dental treatment in your usual way.
